Human consumption <input type="checkbox"/>				
		I.27. For export <input type="checkbox"/>		

SWEDEN**Milk products for export to South Korea (KR)**

I.28. Identification of the commodities					
Species (scientific name)	Name and type of product	Establishment (name, address, approval number)	Number of packages	Net weight (kg)	Best before date
Type of heat treatment			Raw milk for cheese matured at least 60 days at a temperature of at least 2 °C		
LTLT (63~65 °C for 30 minutes) or equivalent			Other _____		
UHT (130~150 °C for 0.5 to 5 seconds) or equivalent					
HTST (72~75 °C for 15 to 20 seconds) or equivalent					
II. Health information		II.a. Certificate reference number			
<p>I (the undersigned inspector) hereby certify that:</p> <ol style="list-style-type: none"> Milk collection, manufacture, processing, packing, distribution, handling and storage of the exported livestock products have been performed in compliance with the sanitary regulations on livestock products laid down in Regulation (EC) No 852/2004, Regulation (EC) No 853/2004 and therefor also regulations enforced in the Republic of Korea and these products have been handled and shipped to the Republic of Korea in a manner avoiding re-contamination. The exported livestock products were manufactured with raw materials that are derived from animals found to be healthy in testing and examination accredited by the exporting country's government and that are suitable for human consumption, and raw milk used in the manufacture of such products was periodically controlled and examined by the government's veterinary authority. The exported livestock products comply with the relevant criteria of standards and specifications regarding food processing in EU and therefor also the Republic of Korea on chemical residues (antimicrobial agents, agricultural chemicals, hormones, heavy metals and radioactive materials) and pathogenic microorganisms (Salmonella, Staphylococcus aureus, Clostridium perfringens, Listeria monocytogenes, Enterohemorrhagic Escherichia coli and others) that cause public health risks. Containers or packaging materials for the exported livestock products comply with sanitary requirements in EU and the Republic of Korea and they are made of materials that are clean and harmless to humans. The exported livestock products are suitably labelled to show the product name, manufacturer and date of manufacture (or sell-by date). The exported product must come from an establishment approved or registered and controlled by the exporting country's government in accordance with Regulation (EC) No 852/2004 and 853/2004 and also registered with the Korean government The exported product must come from an establishment that has a food safety control program, such as HACCP and GMP in accordance with Regulation (EC) No 852/2004, and maintains the relevant records for more than two years. The establishment has documents which describe all operations, from receipt of raw materials to production and release, and specify actions to be taken when non-conformance is found and maintains the relevant records for more than two years. The establishment has a document which describes recall procedures and methods and the exported products can be traceable from production to final sale. The water used in processing and treatment of the exported products shall be suitable for human consumption and shall comply with drinking water regulations in the Republic of Korea or exporting country.
